

LearnQuest - Gamified Learning App

UI/UX Design

Student: Sami Makrani

Project Type: UI/UX Design using Figma

Certificate

This project titled LearnQuest – Gamified Learning App UI/UX Design is submitted as an academic project.

Acknowledgement

I sincerely thank my faculty, mentors, friends and family for their guidance and support.

Abstract

LearnQuest is a mobile learning application concept that improves engagement through gamification such as XP, badges, streaks, leaderboards and progress tracking.

Objectives

- Design a modern mobile learning interface.
- Increase learner motivation using gamification.
- Provide progress tracking and rewards.
- Create a reusable design system.

Problem Statement

Many learning applications struggle to keep users engaged. LearnQuest addresses this by introducing rewards, progress visualization, and daily challenges.

Existing System

Traditional learning apps often lack engaging visual feedback and motivation.

Proposed System

LearnQuest includes Splash, Home, Continue Lesson, Daily Challenge, Achievements, Profile, Leaderboard and Design System screens.

Tools Used

- Figma
- SVG
- GitHub
- Google Drive

Color Palette

- Primary: #6C63FF
- Secondary: #4F46E5
- Accent: #FBBF24
- Success: #22C55E
- Background: #F7F8FC

Typography

- Headings: Poppins Bold
- Body: Inter Regular

Screen Descriptions

- Splash/Login – Branding and authentication.
- Home – Dashboard with XP, level and recommendations.
- Continue Lesson – Resume learning with progress.
- Daily Challenge – Daily missions and rewards.
- Achievements – Badge collection and milestones.
- Profile – User stats and settings.
- Leaderboard – Weekly rankings.
- Design System – Colors, typography and reusable components.

UI Components

- Buttons
- Cards
- Progress Bars
- Badges
- Bottom Navigation
- Avatar
- XP Counter

Advantages

- Modern interface
- Easy navigation
- Motivating experience
- Reusable components

Future Scope

- Dark mode
- AI recommendations
- Certificates
- Cloud sync
- Multiplayer quizzes

Conclusion

LearnQuest demonstrates modern UI/UX principles and shows how gamification can improve user engagement in educational applications.
